Abstract

Contents

1	Introduction	1
2	Background and Related Work	2
3	Experimental Design and Implementation	3
4	Evaluation and Discussion	4
4.1	Experiments	4
5	Conclusion and Future Work	5

1 Introduction

Goal of this Thesis

Structure of the Thesis

2 Background and Related Work

Connections. What is Connections, and why build a Connections AI solver (the meaning of building a Connections AI solver)? The goal of the Connections AI solver, motivation.

Problem statement: what this study is going to answer.

3 Experimental Design and Implementation

4 Evaluation and Discussion

4.1 Experiments

How do we build it: data, pipeline, modules.

- Pure embedding + clustering solver
- Pure LLM solver
- Embedding + LLM solver
- Improvement

5 Conclusion and Future Work
